### **FEATURES & BENEFITS**

Chemtech Diesel Power is a New & Improved diesel fuel additive based on the latest technology in additives and designed to meet the requirements of new generation diesel engines.

Cleans injectors and keeps them clean.

Improves diesel fuel stability (oxidation and thermal stability) thus reducing the formation of gums and insoluble deposits that block filters.

Handles water more effectively for greater engine protection, by facilitating the break-up of stable fuel-water emulsions.

Boosts engine performance – resulting in more dependable power and acceleration.

Improves fuel economy.

Reduces exhaust emissions.

Engine corrosion protection.

Inhibits growth of algae and bacteria.

300ml treats up to 300 litres.
